In addition, Wilson was pleased to announce that the Social Security Administration will be sending out \$250 economic recovery payments to people who receive Social Security and Supplemental Security Income (SSI) benefits beginning in early May 2009. No action is required to get the payment, which will be sent separately from the person's regular monthly payment.

"The one-time payments will go out to more than 50 million of our most vulnerable citizens across the nation," Wilson said. "I've heard from senior citizens across the district that tell me how much help they need paying for their medical care, utilities, housing, and groceries. I hope this \$250 payment gives them a little relief and helps our economy."

The American Recovery and Reinvestment Act of 2009 provides for a one-time payment of \$250 to adult Social Security beneficiaries, and to SSI recipients, except those receiving Medicaid in care facilities. To receive the payment the individual must be eligible for Social Security or SSI during the months of November 2008, December 2008 or January 2009.

The legislation also provides for a one-time payment to Veterans Affairs (VA) and Railroad Retirement Board (RRB) beneficiaries. The VA and RRB will be responsible for paying individuals under their respective programs. However, if someone receives Social Security and SSI, VA or RRB benefits, he or she will receive only one \$250 payment. People getting Social Security or SSI should not contact the agency unless a payment is not received by June 4, 2009.
